APP NAME: SHIKSHAK PRO

Document created by: Krithik Gopinath

APIs for ShikshakPro Utilities

API's for Webinar Table

Method/end-point	PUT/c4e/webinar/webinar/update
Description	Update an existing Webinar
Method/end-point	POST/c4e/webinar/webinar/
Description	Create a new Webinar
Method/end-point	GET/c4e/webinar/webinar/details
Description	Get all Webinar details
Method/end-point	GET/c4e/webinar/webinar/detail
Description	Get a Webinar by ID
Method/end-point	DELETE/c4e/webinar/webinar/delete
Description	Delete an existing Webinar

API's for Webinar Request Table

Method/end-point	PUT/c4e/webinar-request/update-status
Description	Update status of webinar request
Method/end-point	POST/c4e/webinar-request/
Description	Create a Webinar request
Method/end-point	GET/c4e/webinar-request/status
Description	Get a Webinar requests based on Status
Method/end-point	GET/c4e/webinar-request/providerId
Description	Get a Webinar requests based on Provider id
Method/end-point	GET/c4e/webinar-request/details
Description	Get all Webinar request details
Method/end-point	GET/c4e/webinar-request/detail
Description	Get a Webinar request by Id
Method/end-point	DELETE/c4e/webinar-request/delete
Description	Delete a Webinar request

API's for Subscription Table

Method/end-point	PUT/c4e/subscription/update
Description	Update an existing Subscription
Method/end-point	POST/c4e/subscription/
Description	Create a new Subscription
Method/end-point	GET/c4e/subscription/details

Description	Get all Subscription details
<u>Method/end-point</u>	GET/c4e/subscription/detail
Description	Get a Subscription by ID
<u>Method/end-point</u>	DELETE/c4e/subscription/delete
Description	Delete an existing Subscription
<u>API's for subscribed Consumer Table</u>	
<u>Method/end-point</u>	PUT/c4e/subscribed-consumer/cancel-subscription
Description	Update an existing SubscribedConsumers
<u>Method/end-point</u>	GET/c4e/subscribed-consumer/status
Description	check if consumer subscription is active or inactive
<u>Method/end-point</u>	GET/c4e/subscribed-consumer/details
Description	Get all Subscribed Consumer details
<u>Method/end-point</u>	GET/c4e/subscribed-consumer/detail
Description	Get a SubscribedConsumers by ID
<u>Method/end-point</u>	GET/c4e/subscribed-consumer/active-susbscribers
Description	Get all Active Subscribed Consumer details
<u>Method/end-point</u>	DELETE/c4e/subscribed-consumer/delete
Description	Delete an existing SubscribedConsumers
<u>API's for Sub-category Table</u>	
<u>Method/end-point</u>	PUT/c4e/subcategory/update
<u>Method/end-point</u>	POST/c4e/subcategory/
<u>Method/end-point</u>	GET/c4e/subcategory/updatedby
<u>Method/end-point</u>	GET/c4e/subcategory/details
<u>Method/end-point</u>	GET/c4e/subcategory/detail
<u>Method/end-point</u>	GET/c4e/subcategory/createdby
<u>Method/end-point</u>	DELETE/c4e/subcategory/delete
<u>API's for Specialization Table</u>	
<u>Method/end-point</u>	PUT/c4e/specialization/update
<u>Method/end-point</u>	POST/c4e/specialization/
<u>Method/end-point</u>	GET/c4e/specialization/updatedby
<u>Method/end-point</u>	GET/c4e/specialization/details
<u>Method/end-point</u>	GET/c4e/specialization/detail
<u>Method/end-point</u>	GET/c4e/specialization/createdby
<u>Method/end-point</u>	DELETE/c4e/specialization/delete
<u>API's for Providers Subcategory Request Table</u>	
<u>Method/end-point</u>	PUT/c4e/providers/subcategory-request/update-status
Description	Update status of provider Subcategory request

Method/end-point	POST/c4e/providers/subcategory-request/
Description	Create a Provider Subcategory request
Method/end-point	GET/c4e/providers/subcategory-request/details
Description	Get all Provider Subcategory request details
Method/end-point	GET/c4e/providers/subcategory-request/detail
Description	Get a Provider Subcategory request by Id
Method/end-point	DELETE/c4e/providers/subcategory-request/delete
Description	Delete a provider Subcategory request
<u>API's for Providers Course Request Table</u>	
Method/end-point	PUT/c4e/providers/course-request/update-status
Description	Update status of provider course request
Method/end-point	POST/c4e/providers/course-request/
Description	Create a Provider course request
Method/end-point	GET/c4e/providers/course-request/details
Description	Get all Provider course request details
Method/end-point	GET/c4e/providers/course-request/detail
Description	Get a Provider course request by Id
Method/end-point	DELETE/c4e/providers/course-request/delete
Description	Delete a provider course request
<u>API's for Providers Category Request Table</u>	
Method/end-point	PUT/c4e/providers/category-request/update-status
Description	Update status of provider category request
Method/end-point	POST/c4e/providers/category-request/
Description	Create a Provider category request
Method/end-point	GET/c4e/providers/category-request/details
Description	Get all Provider category request details
Method/end-point	GET/c4e/providers/category-request/detail
Description	Get a Provider category request by Id
Method/end-point	DELETE/c4e/providers/category-request/delete
Description	Delete a provider category request
<u>API's for Offers Table</u>	
Method/end-point	PUT/c4e/offers/update
Description	Update Offers by id
Method/end-point	POST/c4e/offers/
Description	Create an Offer
Method/end-point	GET/c4e/offers/details
Description	Get all the Offers

Method/end-point	GET/c4e/offers/detail
Description	Get Offers by id
Method/end-point	DELETE/c4e/offers/delete
Description	Delete Offers by id
API's for Mode Table	
Method/end-point	PUT/c4e/mode/update
Description	Update an existing mode
Method/end-point	POST/c4e/mode/
Description	To create a new mode
Method/end-point	GET/c4e/mode/updatedby
Description	Get details of all the modes based on updated person
Method/end-point	GET/c4e/mode/details
Description	To get all the details of the mode
Method/end-point	GET/c4e/mode/detail
Description	To get the details of a specific mode
Method/end-point	GET/c4e/mode/createdby
Description	Get details of all the modes based on created person
Method/end-point	DELETE/c4e/mode/delete
Description	Delete a mode
API's for Logos Table	
Method/end-point	PUT/c4e/logos/
Description	Update logo
Method/end-point	POST/c4e/logos/
Description	Add a logo
Method/end-point	GET/c4e/logos/logo
Description	GET/c4e/logos/download
Method/end-point	GET/c4e/logos/details
Description	To get all the details of the mode
Method/end-point	GET/c4e/logos/detail
Description	Get logo by id
Method/end-point	DELETE/c4e/logos/delete
Description	Delete a logo
API's for Offers image Table	
Method/end-point	PUT/c4e/image/offers/
Description	Update Offer Image
Method/end-point	POST/c4e/image/offers/
Description	Add an Offers Image

Method/end-point	GET/c4e/image/offers/image
Method/end-point	GET/c4e/image/offers/download
Description	To download Offers image based on id
Method/end-point	GET/c4e/image/offers/details
Description	Get all the Offer Images
Method/end-point	GET/c4e/image/offers/detail
Description	To get an Offers Image by id
Method/end-point	DELETE/c4e/image/offers/delete
Description	Delete Offer Image
<u>API's for Icons Table</u>	
Method/end-point	PUT/c4e/icons/update
Description	Update an Icon
Method/end-point	POST/c4e/icons/
Description	Add an Icon
Method/end-point	GET/c4e/icons/image
Method/end-point	GET/c4e/icons/download
Description	Download an icon based on type
Method/end-point	GET/c4e/icons/details
Description	Get all the icon details
Method/end-point	GET/c4e/icons/detail
Description	Get the icon based on type
Method/end-point	DELETE/c4e/icons/delete
Description	Delete an icon
<u>API's for Courses Table</u>	
Method/end-point	PUT/c4e/courses/update
Description	Update an existing course
Method/end-point	POST/c4e/courses/
Description	Create a new course
Method/end-point	GET/c4e/courses/updatedby
Description	Get all courses based on updated by
Method/end-point	GET/c4e/courses/specialization
Description	Get a course based on specialization
Method/end-point	GET/c4e/courses/specialization/pagination
Description	To get the details of appointments with pagination
Method/end-point	GET/c4e/courses/search
Description	Search for a courses
Method/end-point	GET/c4e/courses/pagination

Description	To get the details of courses with pagination
Method/end-point	GET/c4e/courses/keyword
Description	Get a course based on keyword
Method/end-point	GET/c4e/courses/filter
Description	Get courses by filtering
Method/end-point	GET/c4e/courses/details
Description	Get all courses
Method/end-point	GET/c4e/courses/detail
Description	Get a Course by ID
Method/end-point	GET/c4e/courses/createdby
Description	Get all courses based on created by
Method/end-point	DELETE/c4e/courses/delete
Description	Delete an existing course
<u>API's for Courses image Table</u>	
Method/end-point	PUT/c4e/courses/image/
Description	Update Course Image
Method/end-point	POST/c4e/courses/image/
Description	Add a Course Image
Method/end-point	GET/c4e/courses/image/image
Method/end-point	GET/c4e/courses/image/download
Method/end-point	GET/c4e/courses/image/details
Description	To get all the details of the mode
Method/end-point	GET/c4e/courses/image/detail
Description	Get Course Image by id
Method/end-point	DELETE/c4e/courses/image/delete
Description	Delete Course Image
<u>API's for Category Table</u>	
Method/end-point	PUT/c4e/category/update
Method/end-point	POST/c4e/category/
Method/end-point	GET/c4e/category/updatedby
Method/end-point	GET/c4e/category/pagination
Method/end-point	GET/c4e/category/details
Method/end-point	GET/c4e/category/detail
Description	Get a category by ID
Method/end-point	GET/c4e/category/createdby
Method/end-point	DELETE/c4e/category/delete
<u>API's for Booked Webinar Table</u>	

Method/end-point	PUT/c4e/booked-webinar/update
Description	Update an existing webinar that has been booked
Method/end-point	POST/c4e/booked-webinar/
Description	Create a webinar that has been booked
Method/end-point	GET/c4e/booked-webinar/details
Description	Get all details of webinars that are booked
Method/end-point	GET/c4e/booked-webinar/detail
Description	Get details of booked webinar by Id
Method/end-point	DELETE/c4e/booked-webinar/delete
Description	Delete an existing webinar that has been booked
API's for Providers Consumer Rating Table	
Method/end-point	GET/c4e/providers/rating/
Description	Get Provider rating based on provider_id
Method/end-point	POST/c4e/providers/rating/
Description	Create Provider Rating
Method/end-point	GET/c4e/providers/rating/provider
Description	Get Provider-consumer ratings by ratings based on provider id
Method/end-point	GET/c4e/providers/rating/details
Description	Get all provider-consumer ratings details
Method/end-point	GET/c4e/providers/rating/detail
Description	Get Provider-consumer ratings by rating id
Method/end-point	GET/c4e/providers/rating/consumer
Description	Get Provider-consumer ratings by ratings based on consumer id
Method/end-point	DELETE/c4e/providers/rating/delete
Description	Delete a provider
API's for Providers Feedback Table	
Method/end-point	POST/c4e/providers/feedback/
Description	Create Provider Rating
Method/end-point	GET/c4e/providers/feedback/provider
Description	Get Provider feedback based on provider id
Method/end-point	GET/c4e/providers/feedback/pagination
Description	To get the details of provider feedback with pagination
Method/end-point	GET/c4e/providers/feedback/latest
Description	Get all provider feedback details
Method/end-point	GET/c4e/providers/feedback/details
Description	Get all provider feedback details
Method/end-point	GET/c4e/providers/feedback/detail

Description	Get Provider feedback by feedback id
Method/end-point	GET/c4e/providers/feedback/appointment
Description	Get Provider feedback by feedback id
Method/end-point	DELETE/c4e/providers/feedback/delete
Description	Delete a provider
API's for Provider Notifications Table	
Method/end-point	POST/c4e/provider/notification/
Description	Add a Notifications for the provider.
Method/end-point	GET/c4e/provider/notification/details
Description	Get all provider notifications
Method/end-point	GET/c4e/provider/notification/detail
Description	Get all Consumer Notifications based on provider id.
Method/end-point	DELETE/c4e/provider/notification/delete
Description	Delete a notification
API's for Provider To Institute Feedback Table	
Method/end-point	POST/c4e/provider/institution-feedback/
Description	Create Provider Institute Feedback
Method/end-point	GET/c4e/provider/institution-feedback/provider
Description	Get feedback based on Provider id
Method/end-point	GET/c4e/provider/institution-feedback/pagination
Description	To get the details of Provider to institute feedback with pagination
Method/end-point	GET/c4e/provider/institution-feedback/institute
Description	Get feedback based on institute id
Method/end-point	GET/c4e/provider/institution-feedback/details
Description	Get all Provider to institute feedback details
Method/end-point	GET/c4e/provider/institution-feedback/detail
Description	Get feedback by feedback id
Method/end-point	GET/c4e/provider/institution-feedback/appointment
Description	Get feedback by appointment id
Method/end-point	GET/c4e/provider/institution-feedback/Provider/pagination
Description	To get the details of Provider to institute feedback with pagination
Method/end-point	DELETE/c4e/provider/institution-feedback/delete
Description	Delete a feedback
API's for Partner Notifications Table	
Method/end-point	POST/c4e/partner/notification/instituteld
Description	Add a Notifications for the partner by instituteld.
Method/end-point	POST/c4e/partner/notification/

Description	Add a Notifications for the partner.
Method/end-point	GET/c4e/partner/notification/details
Description	Get all partner notifications
Method/end-point	GET/c4e/partner/notification/detail
Description	Get all Consumer Notifications based on partner id.
Method/end-point	DELETE/c4e/partner/notification/delete
Description	Delete a notificationr
<u>API's for Institute to Provider Feedback Table</u>	
Method/end-point	POST/c4e/institute/provider-feedback/
Description	Create Institute-Provider Feedback
Method/end-point	GET/c4e/institute/provider-feedback/provider
Description	Get feedback based on Provider id
Method/end-point	GET/c4e/institute/provider-feedback/provider/pagination
Description	To get feedback with pagination based on provider id
Method/end-point	GET/c4e/institute/provider-feedback/pagination
Description	To get feedback with pagination
Method/end-point	GET/c4e/institute/provider-feedback/institute
Description	Get feedback based on institute id
Method/end-point	GET/c4e/institute/provider-feedback/institute/pagination
Description	To get feedback with pagination based on institute id
Method/end-point	GET/c4e/institute/provider-feedback/details
Description	Get all Institute to provider feedback details
Method/end-point	GET/c4e/institute/provider-feedback/detail
Description	Get feedback by feedback id
Method/end-point	GET/c4e/institute/provider-feedback/appointment
Description	Get feedback by appointment id
Method/end-point	DELETE/c4e/institute/provider-feedback/delete
Description	Delete a feedback
<u>API's for Institute to consumer Feedback Table</u>	
Method/end-point	POST/c4e/institute/consumer-feedback/
Description	Create Institute-Consumer Feedback
Method/end-point	GET/c4e/institute/consumer-feedback/pagination
Description	To get feedback with pagination
Method/end-point	GET/c4e/institute/consumer-feedback/institute
Description	Get feedback based on institute id
Method/end-point	GET/c4e/institute/consumer-feedback/institute/pagination
Description	To get feedback with pagination based on institute id

Method/end-point	GET/c4e/institute/consumer-feedback/details
Description	Get all Institute to consumer feedback details
Method/end-point	GET/c4e/institute/consumer-feedback/detail
Description	Get feedback by feedback id
Method/end-point	GET/c4e/institute/consumer-feedback/consumer
Description	Get feedback based on Consumer id
Method/end-point	GET/c4e/institute/consumer-feedback/consumer/pagination
Description	To get feedback with pagination based on consumer id
Method/end-point	GET/c4e/institute/consumer-feedback/appointment
Description	Get feedback by appointment id
Method/end-point	DELETE/c4e/institute/consumer-feedback/delete
Description	Delete a feedback
API's for Courses Filter Table	
Method/end-point	POST/c4e/courses/filter/
Method/end-point	GET/c4e/courses/filter/location
Description	Get all provider courses details based on location
Method/end-point	GET/c4e/courses/filter/location/price
Description	Get all provider courses details sorted by price in ascending or descending order
Method/end-point	GET/c4e/courses/filter/location/filter
Description	Get all provider courses details based on location filtered by km
API's for Consumer Notifications Table	
Method/end-point	POST/c4e/consumer/notification/new-provider
Description	Add a Notifications for the consumer.
Method/end-point	POST/c4e/consumer/notification/
Description	Add a Notifications for the consumer.
Method/end-point	GET/c4e/consumer/notification/details
Description	Get all consumer notifications
Method/end-point	GET/c4e/consumer/notification/detail
Description	Get all Consumer Notifications based on consumer id.
Method/end-point	DELETE/c4e/consumer/notification/delete
Description	Delete a notificationr
API's for Consumer To Institute Feedback Table	
Method/end-point	POST/c4e/consumer/institution-feedback/
Description	Create Consumer Institute Feedback
Method/end-point	GET/c4e/consumer/institution-feedback/pagination
Description	To get the details of consumer to institute feedback with pagination
Method/end-point	GET/c4e/consumer/institution-feedback/institute

Description	Get feedback based on institute id
Method/end-point	GET/c4e/consumer/institution-feedback/details
Description	Get all consumer to institute feedback details
Method/end-point	GET/c4e/consumer/institution-feedback/detail
Description	Get feedback by feedback id
Method/end-point	GET/c4e/consumer/institution-feedback/consumer
Description	Get feedback based on consumer id
Method/end-point	GET/c4e/consumer/institution-feedback/consumer/pagination
Description	To get the details of consumer to institute feedback with pagination
Method/end-point	GET/c4e/consumer/institution-feedback/appointment
Description	Get feedback by appointment id
Method/end-point	DELETE/c4e/consumer/institution-feedback/delete
Description	Delete a feedback
API's for Consumers Feedback Table	
Method/end-point	POST/c4e/consumer/feedback/
Description	Create Provider Rating
Method/end-point	GET/c4e/consumer/feedback/pagination
Description	To get the details of consumer feedback with pagination
Method/end-point	GET/c4e/consumer/feedback/details
Description	Get all consumer feedback details
Method/end-point	GET/c4e/consumer/feedback/detail
Description	Get Provider feedback by feedback id
Method/end-point	GET/c4e/consumer/feedback/consumer
Description	Get Provider feedback based on consumer id
Method/end-point	GET/c4e/consumer/feedback/appointment
Description	Get Provider feedback by feedback id
Method/end-point	DELETE/c4e/consumer/feedback/delete
Description	Delete a consumer
API's for Claimed Subscription Table	
Method/end-point	POST/c4e/claimed-subscription/
Description	Add a claimed Subscription
Method/end-point	GET/c4e/claimed-subscription/transactionId
Description	Get Claimed Subscription details by transaction id
Method/end-point	GET/c4e/claimed-subscription/subscriptionId
Description	Get Claimed Subscription details by Subscription id
Method/end-point	GET/c4e/claimed-subscription/details
Description	Get all the details of Subscriptions that are Claimed

Method/end-point	GET/c4e/claimed-subscription/detail
Description	Get Claimed Subscriptions by id
Method/end-point	GET/c4e/claimed-subscription/consumerId
Description	Get Claimed Subscription details by consumer id
Method/end-point	GET/c4e/claimed-subscription/claimedDate
Description	Get Claimed Subscription details by date
Method/end-point	DELETE/c4e/claimed-subscription/delete
Description	Delete Claimed Subscriptions by id
API's for Claimed Offers Table	
Method/end-point	POST/c4e/claimed-offers/
Description	Add a claimed offer
Method/end-point	GET/c4e/claimed-offers/transactionId
Description	Get Claimed Offer details by transaction id
Method/end-point	GET/c4e/claimed-offers/offerId
Description	Get Claimed Offer details by offer id
Method/end-point	GET/c4e/claimed-offers/details
Description	Get all the details of Offers that are Claimed
Method/end-point	GET/c4e/claimed-offers/detail
Description	Get Claimed Offers by id
Method/end-point	GET/c4e/claimed-offers/consumerId
Description	Get Claimed Offer details by consumer id
Method/end-point	GET/c4e/claimed-offers/claimedDate
Description	Get Claimed Offer details by date
Method/end-point	DELETE/c4e/claimed-offers/delete
Description	Delete Claimed Offers by id
API's for Appointment Table	
Method/end-point	GET/c4e/appointments/upcoming
Description	To get the details of all past appointments with pagination
Method/end-point	GET/c4e/appointments/provider/upcoming
Description	To get the details of appointments with pagination
Method/end-point	GET/c4e/appointments/provider/specific-date
Description	To get the details of appointments for a provide based on specific date
Method/end-point	GET/c4e/appointments/provider/past
Description	To get the details of appointments with pagination
Method/end-point	GET/c4e/appointments/provider-finished-classes-count
Description	Get count of all the provider finished classes
Method/end-point	GET/c4e/appointments/past

Description	To get the details of all upcoming appointments with pagination
Method/end-point	GET/c4e/appointments/pagination
Description	To get the details of appointments with pagination
Method/end-point	GET/c4e/appointments/institution/upcoming
Description	To get the details of appointments with pagination
Method/end-point	GET/c4e/appointments/institution/specific-date
Description	To get the details of appointments for a institution based on specific date
Method/end-point	GET/c4e/appointments/institution/past
Description	To get the details of appointments with pagination
Method/end-point	GET/c4e/appointments/details
Description	To get the details of appointments
Method/end-point	GET/c4e/appointments/detail
Description	Get Appointment details by id
Method/end-point	GET/c4e/appointments/consumer/upcoming
Description	To get the details of appointments with pagination
Method/end-point	GET/c4e/appointments/consumer/specific-date
Description	To get the details of appointments for a consumer based on specific date
Method/end-point	GET/c4e/appointments/consumer/past
Description	To get the details of appointments with pagination
<u>API's for Appointment Details</u>
